M E S S A G E

Our schools mark the culmination of our learners' years of hard work, dedication, and perseverance this July 2023 with the theme, "K to 12 Graduates: Molded through a Resilient Educational Foundation".

Our schools' radiance and renowned excellence are embodied in the golden mark, leaving an indelible impression on its graduates and completers.

As Graduates and Completers, you have emerged as excellent examples of what can be achieved when molded through a resilient environment.

The journey cannot disregard the challenges that have shaped you. You grappled with the uncertainty and adversity of the three school years of exceptional education that forced technology, alternative delivery, and shifts. These challenges molded you into a resilient young man and woman that weathered the storm and emerged triumphant.

Your graduation and completion manifested resilience that equipped you with the knowledge, skills, and values needed to navigate the complexities of the world. This transformative educational path allowed you to reap the rewards of your unwavering commitment. You have learned to embrace the pandemic as an opportunity for growth, to turn setbacks into stepping stones towards success. Your ability to bounce forward from adversity and remain steadfast in the face of challenges sets you apart.

With confidence, we know that you, our graduates, are prepared. You possess the resilience necessary to face the uncertainties that lie ahead.

With this, we extend our heartfelt congratulations to the school head, parents, teachers, and other stakeholders for molding you into torchbearers of resiliency... our Graduates and Completers for Batch 2023!

Congratulations!
